POLA KASEI KOGYO

dem. : 84.05.31 (111874) pub. : 85.12.17

PRODUIT POUR LE MAQUILLAGE DES YEUX RESISTANT A L'EAU.

The prepn. (I) contains a solid oil (II), a volatile oil (III), a pigment (IV) and a high viscosity silicone oil (V). (V) may be a dimethylpolysiloxane with a viscosity of 100,000-1,000,000 cs.

(II) is e.g. a solid wax such as carnauba wax, candelilla wax, Japan wax or beeswax, a solid hydrocarbon such as ceresine, solid paraffin wax, polyethylene wax or microcrystalline wax, a solid higher fatty acid such as palmitic acid, stearic acid or behenic acid, or a solid higher alcohol such as cetanol or stearyl alcohol. (III) is e.g. a low b.pt. isoparaffin hydrocarbon, a low b.pt. silicone oil or a low b.pt. cyclic silicone oil. (IV) is e.g. Fe oxide, Cr oxide, sericite, talc, kaolin or Ti oxide.

ADVANTAGE - (I) has excellent water and oil resistance, stability on standing and usability. (4pp Dwg.No.0/0)

CPI BASIC, 8605, N° D 0231.1986.
